

MACQUARIE UNIVERSITY SYDNEY, AUSTRALIA

Macquarie University graduates are highly sought after by employers around the world - our graduate starting salaries have been ranked amongst Australia's highest for over a decade¹.

A world class university

Ranked among Australia's nine top universities², Macquarie is distinguished by the range and quality of its courses, which are designed in response to the ever-changing needs of industry, society and the environment.

World-leading research is undertaken by Macquarie's faculties and students, and is actively integrated into our undergraduate and postgraduate curriculum.

Macquarie University's North Ryde campus is located on 126 hectares of beautiful parkland and is a 30-minute drive or train ride north-west of Sydney's city centre. We also offer courses at our Macquarie City Campus.

The Sydney Institute of Business and Technology (SIBT), located at the Macquarie University and Macquarie City campuses, offers pathway diplomas to give students entry to the second year of Macquarie's bachelor degrees. Also located on campus is the Centre for Macquarie English (CME), which offers a range of specialised university entry English preparation programs, approved by Macquarie University and SIBT.

Hear from our students

As a Macquarie University student you will join a diverse and welcoming community of approximately 33,000 students, with 10,400 international students from over 114 countries.

MIRIAM JOSSE, SWITZERLAND
MASTER OF ARTS IN INTERNATIONAL COMMUNICATION

The Global Leadership Program (GLP) is an excellent extracurricular program that helped me to meet new people and extend my knowledge about current issues. I can certainly see the GLP program as Macquarie University's best asset.

Other highlights of my Macquarie experience were the various trips organised by Macquarie International. I went on the boat cruises, to Canberra and the Hunter Valley and always had a great time.

MOALOSI MMAPETLA, BOTSWANA
BACHELOR OF SPEECH AND HEARING SCIENCES

Having been in Macquarie for three semesters, I think the Australian style of learning is best! Sometimes under certain circumstances you might miss a lecture, but recordings are usually provided online, and most interestingly in some courses they give video lectures online.

Macquarie has now become the best university I could ever imagine attending, and I am planning to do my Master of Clinical Audiology here.

PALOMA PALACIOS, MEXICO
MASTER OF COMMUNICATION DISORDERS

After finishing my bachelor degree in Special Education in Mexico, I felt I needed to keep studying. Macquarie had the perfect program and professors – and the university is research-focused.

I think it's really amazing to be taught by the people who did the research and who wrote the books. It really helps to get the newest information and evidence that supports the theories we're using.

ZHIPENG (TOBY) WANG, CHINA
BACHELOR OF BUSINESS ADMINISTRATION WITH
BACHELOR OF ARTS - PSYCHOLOGY

Business and Psychology is an interesting combination – I'd never heard of it before I saw it at Macquarie.

Both are challenging but these degrees are very good, the lecturers are both knowledgeable and interesting. It just makes you want to learn more!

Group work has also made me a better person when working with others – you have the chance to meet lots of people and practise your English constantly.

Enhance your degree

At Macquarie University we focus on developing your capabilities, to give you skills for your career and your life. You will have many opportunities to build your leadership, communication and life skills through a range of unique programs.

Global Leadership Program (GLP)

The GLP is unique to Macquarie University and will differentiate you as a graduate prepared for a role in global leadership.

The program has been designed so that you not only learn global skills and understanding— you put them into practice by studying, volunteering and participating in internships in Australia and overseas.

This extracurricular program is entirely funded by the Vice Chancellor's office and is open to all undergraduate and postgraduate Macquarie University students, from any discipline or degree.

Successful completion of the GLP is officially recognised on your academic transcript and provides a competitive edge in the global employment market.

Student exchange program

As a student at Macquarie University, you have access to a vast range of globally-focused opportunities. Macquarie has one of the most extensive international exchange programs of any Australian university.

With over 250 universities from more than 60 countries to choose from, you can study overseas for periods ranging from a few weeks' vacation study to a full academic year.

Most importantly, Macquarie University helps support our students financially when they travel, so everyone has the opportunity to enhance their degree with international experience.

Internships

Work experience is one of the most valuable experiences you can have on your resume. Macquarie University offers internships across all four faculties, providing a unique multidisciplinary focus.

Information about faculty-based internships can be sought from individual faculties. Previous faculty internships have included placements with Honeywell, Cochlear, United Nations Headquarters and Mission Australia.

Macquarie International also facilitates specific internships for Study Abroad students, and students of the Bachelor of International Studies, Master of International Business, Master of Commerce, Master of Biotechnology, Master of Consulting in Information Technology, or Master of International Relations degrees.

For internship opportunities through Macquarie International, our internship eligibility criteria and fields, visit

 www.international.mq.edu.au/internships

PACE International

(Participation and Community Engagement Initiative)

PACE International, jointly managed by Macquarie University and Australian Volunteers International, aims to provide opportunities for students and staff to actively contribute to more just, inclusive and sustainable societies through activities with communities and organisations overseas.

Through experiential learning activities, you will have opportunities to apply your classroom learning to real world situations while developing skills that employers value. Programs run throughout the year and go to destinations in the Pacific, South East Asia and Latin America.

Participation grants are available to help students finance part of their experience abroad.

GLP Distinguished
Speaker Series

Scholarships at Macquarie University

Macquarie University has one of the most generous ranges of scholarships and grants in Australia. We provide support for many international students to undertake studies at Macquarie University, as well as for study abroad and exchange opportunities.

Macquarie University International Scholarship (MUIS)

MUIS aims to attract outstanding students from around the world to study at Macquarie University.

There are up to 40 full-tuition scholarships available each year for postgraduate and undergraduate students. The scholarship is highly competitive and is awarded on the basis of academic merit.

How to apply

You can find more information about MUIS scholarship eligibility, conditions of the scholarship and the MUIS online application form at

www.international.mq.edu.au/scholarships/muis

Australian Government Scholarships

Macquarie University participates in Australian Government Scholarship programs such as the Australian Development Scholarships (ADS), and the Australian Leadership Awards (ALA).
